## A Little bit of our History...

If you go to Bavaria, in Germany, you will most certainly get back with a part of it in your heart. The landscape, the people, the fun, the food... Just irresistible!

Seduced by the delicious "Bavarian Nuts", John Mauter decided to bring them to the US. He dropped his job and founded The Nutty Bavarian, and shared his idea with a friend of his, David Brent, a former NASA engineer that also "went nuts" about it, and became the President of the Company, which he runs until now.

In 1996, Adriana Auriemo and Daniel Miglorancia brought the concept to Brazil, where they developed a Franchising Network focused in operating kiosks in Shopping Malls, Airports and Bus Stations. As time passed by, they updated the original sales proposition and the kiosks as well. The results were so good that they were invited by David Brent to come to the US to install their kiosks in Shopping Centers there!

With almost 20 years of experience and more than 120 kiosks in operation in most of the nicest Brazilian Shopping Centers, and also with our supplier in Orlando-FL, our goal is to install and operate our kiosks in all USA Shopping Malls, Airports and other similar venues that we can get in.

# How We Do It

We produce our Bavarian Nuts on site, using this custom made Nut-Roaster. The process is very simple, and the roaster only needs an electric outlet to be plugged in to. We also developed a smell container system, that carries an air filter set-up with an acrylic lid.

## *Serving our Bavarian Nuts*

Our clients can choose from a wide variety of nuts and special flavors, and also different packing options. We prepare and serve our fresh Bavarian Nuts right out of our roaster to our Nut warmer, and from there to our cones, boxes and tins. We do it all in front of our customers also to prove how fresh our products always are.
